

EZGO ST ADVANTAGE
WorkHorse

Introducing the biggest breakthrough in outdoor sports since the rifle scope. The WorkHorse® ST Advantage Series. We took our popular WorkHorse ST vehicles and outfitted them with authentic RealTree® Advantage Camo. Giving you a serious advantage when you head outdoors. No more straddling a saddle-style seat. No more uncomfortable rides on the back of a 4-wheeler. Now there's a hunting vehicle that lets two trophy hunters enjoy the comfort of a bench or bucket seat with more than enough room to carry all your gear securely. And it all fits in the bed of a full-size pickup truck.

BILL JORDAN'S
ADVANTAGE
CLASSIC®

(Specifications subject to change without notice.)

The ST Sport boasts a spacious 46" bed with a removable tailgate and a load capacity of 650 pounds. And it's powered by an 11-horsepower 350cc twin cylinder, overhead cam engine. The heavy-duty suspension and rack and pinion steering give you comfort and better handling in the roughest terrain.

The ST 350 gives you even more payload capacity-800 pounds. And like all the WorkHorse® vehicles, it has a flexible impact-resistant front cowl with a Galvanneal steel rear body.

The ST 480 is really 16 workhorses in one, with its 16-horsepower Vanguard V-Twin engine. It also has a positive locking rear differential and self-adjusting hydraulic rear brakes. Twin bucket seats surround the easy-to-reach center control console. And like all WorkHorse vehicles, it all fits in the bed of a full-size pickup truck.

E-Z-GO is an authorized licensee of the RealTree® Advantage Camo pattern, and all E-Z-GO WorkHorse ST vehicles are available with this popular option. So if you're heading outdoors, don't go without a good WorkHorse.
